EXPERIENCE

Product Designer II - PowerApps | Microsoft (via Aquent)

Dec 2017 - Current • Bellevue, WA

- UX designer for PowerApps, a SaaS that allows users to create custom enterprise facing and data focused, low-code apps
- Collaborate with PMs, Research, and Content to establish user scenarios for features and end to end experiences, and deliver research driven designs to Engineering
- Present design solutions to key stakeholders and define consistent interaction, UI, accessibility, and illustration patterns across the larger product platform

Interaction Design Intern | Konnekti Inc.

June - August 2016 & March - May 2017 • Seattle, WA

- Responsible for delivery of information architecture, wire-frames, interactive prototypes, and high fidelity mock-ups for a mobile peer-to-peer service app designed for iOS
- Delivered within a rapid time-line that included presenting designs to stakeholders, quickly iterating during requirement and scope changes, and spec hand-off to engineers

Assistant Language Teacher | JET Program

July 2013 - July 2014 • Onomichi City, Hiroshima, Japan

- Taught English to elementary and junior high school students at six schools in Onomichi City
- Developed English language lesson plans and visual aids in print and digital media
